    Udacity Nanodegree Program,US
Ekiti State University,Ado-Ekiti ,Ekiti-State.   Nov 2011-Jan 2018

B.Engr. (Electrical/Electronic)
(Second class upper division)

PROJECT & TASK

Travel App
APIs was used to get following data

Geonames - Used to get geolocation data
Weatherbit - Used to get weather data
weather
Pixabay - Used to get image data
This serve as guide for travellers.
To have a location information.
Tech stack: Webpack, JavaScript,
 an external API, express and node.js.

JaskExpress Ecommerce Hub
Mobile Application
Flutter - Application User Interface
Firebase Cloud Database & Storage
 - used to fetch and store data
Firebase Authentication - for user authentication
Firebase Cloud Messenger - for notifications
and alert
Payment Integration: Paystack
Ecommerce Website App
Client-side Scripting: Reactjs

Weather Journal App
APIs was used to get following data

OpenWeather-Use to get data
this serve as a guide to check

get weather report it help to track,
Temperature, city ,date of a particular
Location.
Tech stack: Node.js, Express, JavaScript

GMTsoftware Solution

Front-End: React-js,Bootstrap
Server-side: Nodejs
Database: Mongo-db
Mailing: Email.js

UFO sighting (Machine Learning)
Front-end: Flask
Serialize: Pickle
Dataset: NUFORC database
Scikit-learn: Train Dataset Model

SoftWare Engineering Internship(JPmorgan)
Task accomplished Interfacing with stock price data feed
Use JPMorgan Chase Frameworks and tools to query data from
JPMorgan
Implementing the perspective open source code in preparation for
data visualization
Use perspective to create the chart for the traders dashboard
        Tech stack:python,reactjs,nodejs,express git

OTHER PROJECT;
- **Dynamic website Festus Femi & Co property management**
  * Nedb Database,Javascript,Nodejs,Express,jquery*
- **BMI calculator:** flutter
- **Chat Messenger**: Flutter
- **Quiz App & Shopping cart**: React-js and Typescript
- **PollApp**: Python, Django
- **WeatherApp:** Flutter
- Static website:

WORK EXPERIENCE
Software Developer GMTsoftware, Abuja   Sep 2020 – present
• Supplied troubleshooting, analysis, and solutions for clients' database

application
• Researched coding and database concerns to resolve non-functional application issues
Software Engineering Virtual Internship (inside Sherpa)   Feb 2020
JpMorgan chase and co, USA.
Transmission company of Nigeria,Abuja   Feb 2016-aug 2016
Engineer intern
